Professional Experience

Full Stack Dev Research - Part Time - May/2025 – today

- Building MERN-based websites and interactive dashboards for public health and science communication.
- Designing accessible interfaces and visual systems using Figma, Framer, and Tailwind CSS.
- Prototyping chatbot flows and gamified modules to improve user engagement and literacy.
- Iterating based on user feedback to ensure clarity, usability, and alignment with project goals

Lead UX/UI Designer – gg.xyz - Set/2022 – Abr/2025

- Led product and brand design for a Web3-based gamified platform.
- Designed key features like tokenized groups, content feeds, and bonding curve token mechanics.
- Spearheaded the company rebrand, including the creation of the GG mascot and modular identity system.
- Worked closely with engineering, growth, and community teams to ship new features from ideation to launch.
- Oversaw design delivery using Figma, Framer, and live layout systems for Web3 rollouts.

Academic Senior Designer – CSBL/USP, Jan/2020 – Dez/2022

- Created branding, visuals, and academic publication materials for the research lab.
- Designed and illustrated the educational game VACC, finalist at the Prêmio Brasil Criativo.
- Produced 2D/3D visuals for exhibitions, motion graphics, and science outreach content.

Branding Designer – AHH! Agência Criativa, Jan/2015 – Dez/2017

- Designed full identity systems and digital content for cultural campaigns like COCIDADE Festival.
- Delivered print and digital assets for cultural clients and public institutions.

Graphic Designer – Printi, Jan/2012 – Dez/2015

- Created print-ready designs, standardized templates, and supported high-scale pre-press workflows.

Certifications & Additional Info

- Finalist – Prêmio Brasil Criativo [2022] with the game VACC.
- Winner – EthereumSP Hackathon [2022] for a Web3 app prototype.
- Selected – SESC SP Naïfs Biennial [2018] with original art.
