Summary

- Lead Product Designer with 12+ years of experience building and scaling digital products, with strong expertise in Web3, crypto UX, and financial platforms.
- Proven track record leading design from 0→1 launch, creating crypto onboarding flows, token dashboards, reward systems, and community-driven products.
- Specialized in simplifying complex systems into intuitive, trustworthy, and scalable experiences, working closely with founders, engineers, and product teams.

Education

- B.Tech in Animation Design**, Senac University Center, 2022–2024
- BA in Design**, Mackenzie Presbyterian University, 2011–2015
- UX/UI Design Course**, designcourse.com, 2022
- UX/UI Design - Figma**, EBAC, 2020

Professional Experience

Lead UX/UI Crypto Product Designer – gg.xyz (Sep 2022 – Apr 2025)

- Led end-to-end design of a Web3 platform, delivering tokenized community systems, crypto dashboards, and reward mechanics (XP, quests, engagement loops)
- Designed crypto onboarding and UX flows focused on accessibility, trust, and reducing friction for non-crypto users (wallet-optional experience)
- Scaled product and design operations by building design systems, leading cross-functional collaboration, and driving engagement through NFT (3D) campaigns

Product Designer FrontEnd – InovaLab USP (May 2025 – Present)

- Designed and implemented React-based dashboards and platforms
- Built data-driven interfaces for public health and verification systems
- Focus on usability, clarity, and structured information architecture

Product Designer – Game Design – CSBL/USP (Jan 2020 – Dec 2022)

- Lead designer for the lab, responsible for visual systems and platform design.
- Designed full UX/UI for educational game (VACC) including systems, UI, and interactions

Brand Designer – Creative Agency (Jan 2015 – Dec 2017)

Graphic Designer – Printi.com.br (Jul 2012 – Dec 2015)

Core Expertise

Web3 & Crypto

- Crypto onboarding & wallet UX
- Token dashboards & portfolio visualization
- Reward systems (XP, staking-like mechanics, engagement loops)
- NFT campaigns & 3D assets
- Community platforms (token-gated, social + economic layers)
- Trust, transparency, and accessibility in crypto UX

Awards & Certifications

- Finalist** at the Prêmio Brasil Criativo (2022) with the game VACC: Defeating Coronavirus.
- Winner** of the EthereumSP Hackathon (2022) for a Web3 app prototype
- Special Mention** – SESC SP Naïfs Biennial (2018), with original artwork.

Languages

- Portuguese:** Native
- English:** CEFR C1 (reading, writing, listening) | CEFR B2 (speaking) - Fluent
